

Dear School / Organization,

Engaging students in math is one of the most important factors in creating tomorrow's workforce. So many fundraisers sell food items or seasonal gifts. We have a unique fundraiser where educational items are sold. It is Cipher Quick Math Cards and Cipher Quick Math Kit. That's right, we only have 2 products. These products will motivate, challenge and reinforce math skills all while having fun! It's a lasting investment!

**What are the benefits of the Products?**

***The Cipher Quick Math Card Games have several benefits:***

- Learn and retain basic math skills
- Increase performance in/out classroom
- Fun for the entire family
- Pre-School and Kindergarten Games: Helps practice larger/smaller, odd/even, adding and subtracting

***The Math Addition-Subtraction/Multiplication-Division Board is a great tool:***

- Use the math boards during game play
- Helps to find answers to problems

These products are great in improving the confidence and math skill ability of ages 4 and over!

This fundraiser can be done internally or externally. You can have each parent purchase a deck of cards or kit for their child. Or you can expand it to allow them to sell to their family/friends. This is a great game to encourage math skills and can be used at school or at home.

**How Does The School Benefit?**

**Cipher Quick Math Cards (# 0100) suggested selling price \$10.**
